Maintenance Guide for SUPERAntiSpyware

Open SUPERAntiSpyware by clicking on its icon. This will bring you to the main menu where you control everything from. Follow the instructions below:

If a **Product Update** dialogue box appears in the bottom right-hand corner of your screen upon opening SUPERAntiSpyware, make sure you accept the update by clicking on **Download** then **OK** once complete. This will update it to the latest software version.

CHECK FOR UPDATES: This section downloads and installs the latest protection updates.

1. Click on the blue **CLICK HERE TO CHECK FOR UPDATES** text below.
✓ *The latest protection updates will be downloaded and installed.*
2. Click on **OK** once complete.
✓ *Continue on to the Scan This Computer section below.*

SCAN THIS COMPUTER: This section scans your computer for any infections and removes them.

3. Click on **SCAN THIS COMPUTER**.
4. Click on either **QUICK SCAN** or **COMPLETE SCAN** to continue.
✓ ***Quick Scan** is fine most of the time but do a **Complete Scan** once a month.*
5. Click on **SCAN YOUR COMPUTER**.
✓ *Scanning for unwanted programs and infections on your computer will start.*
✓ *If the scan finds any unwanted programs on your computer, it will be highlighted in red and may require you to click on the X symbol next to each entry to remove them before you can continue.*
✓ *If the scan finds any infections on your computer, it will be highlighted in red.*
✓ *Once the scan has completed, all the infections found will be displayed.*
✓ *If no infections were found, click on **OK** and go to step 7.*
6. Click on **CONTINUE**.
✓ *Make sure there is a tick in each checkbox for every entry listed.*
7. Click on **CONTINUE** below.
✓ *All infections will be removed.*
8. Click on **REBOOT NOW** to restart your computer (if prompted).
9. Click on **CLOSE (X)** at the top right-hand corner of SUPERAntiSpyware to exit.
✓ *You're all done. Repeat all the above steps weekly.*

EXTRA INFORMATION:

Do not click on the **click here to upgrade** text below as you're using the **FREE** version of SUPERAntiSpyware. If you accidentally click on it, you will be taken to the SUPERAntiSpyware website to purchase the **Professional** version. Simply close the webpage if this happens.

The **FREE** version has a few features that are disabled and only work in the Professional version. **Real-Time Protection**, **Scheduled Scanning** and **Automatic Updates** display Not Protected which are turned off and do not function as they're features only available in the Professional version.
